

The Zin Zen Wine Bar

The Zin Zen wine bar can serve as either a stand-alone storage solution or the centerpiece of your wine cellar. This modern handcrafted piece holds 20 bottles of your favorite wine and is the ideal height for tasting. Storage includes a stemware rack holding up to 12 glasses and a drawer to store all of your wine accessories. Additionally, there is an adjustable shelf to complete your storage needs. The cantilevered, quarter-sawn ash veneer top floats above the maple veneered case. The solid walnut frame is mortised and tenoned to last a lifetime.

Hand-cut dovetails on the drawer are another reminder of the traditional joinery used. Walnut veneered doors are sequenced matched to highlight the continuous horizontal grain. Modern touches include; brushed nickel pulls, Accuride drawer slides and Blum European hinges with soft closure to prevent the doors from slamming shut. The dye stain and polyurethane finish are both water-based, resulting in an environmentally friendly and hard wearing piece. Dimensions: 18"d x 60"w x 36"h.

The wine bar shown is available now and is priced to sell at \$2700 + shipping. Made to order the Zin Zen wine bar can be customized to suit you. Several wood combinations are available starting at \$4000. Please call or email for a quote.
